**Jadaun Elevators** is your go-to for the best elevator service and maintenance! We pride ourselves on providing exceptional care for elevators and lifts, ensuring they run smoothly and reliably. With our team of experts, we guarantee top-notch service and a commitment to keeping your elevators in tip-top shape.  
Trust Jadon Elevators for all your elevator needs!

# Company Introduction

**Jadaun Elevators** is your go-to for the best elevator service and maintenance! We pride ourselves on providing exceptional care for elevators and lifts, ensuring they run smoothly and reliably. With our team of experts, we guarantee top-notch service and a commitment to keeping your elevators in tip-top shape. Trust Jadaun Elevators for all your elevator needs!

## Baldev Singh Jadaun

Dir/Founder

He Is The Founder & Director Of  
Jadaun Elevators.  
Elevating people and businesses to new  
heights!

### The Beginning

Founded in 2015, Jadaun Elevators was created a Elevator solution for all types businesses to improve their Image & Service through Experienced Workers, High Quality Materials and community support. Then In 2018 This Business Legally Registered. With our team of experts, we guarantee top-notch service and a commitment to keeping your elevators in tip-top shape.  
Contact Us To Know More.

### Our Services

Jadaun Elevators Provide This Type Of Services. Such as  
MANUFACTURING OF ALL TYPES OF ELEVATORS &  
ESCALATOR, INSTALLATION, REPAIRS, MODIFICATION  
& AMC.

# Business Description

About Jadaun Elevators Work & Services.

## Images and Work Samples

# Passanger Lift

Our Passenger lifts have flexible and diverse designs, designed to satisfy the demand of residents for quick transportation and safety, which can be integrated in various type of building. The variable design enables a perfect adaptation to the architectural surroundings such as old renovated building, modern domiciles or social housing. The main agenda of our passenger lift is to provide the best quality lifts within a feasible budget.

# Freight/Goods Lift

We offer a complete range of goods or freight lifts for different applications involving transportation of goods. The capacity ranges from 500 kg to 10000 kg depending upon the requirement. According to clients demand, we are designing and manufacturing freight lifts that cope with various severe environments and has become an ideal choice for factories, warehouses, malls, real estate centers with its high sense of responsibility and powerful carrying capacity.

# Drum Lift

Drum Lifts are inexpensive commercial lift solution which are used for vertical transportation of goods. Our drum lifts are used in factories, godowns, car showrooms etc.

# Hospital Lift

Hospital stretcherElevatorsfor Nursing Home & Hospital Buildings depending upon the shaft size with speed/amenities upto choice of owners.

# Dumbwaiter Lift

We have an ideal range of dumbwaiter and specially provide rapid convenient and economic vertical transport means for diets, beverages, dinnerware, files, books and so on. Dumbwaiter are widely used in hotel, libraries, laboratories, buildings, banks and other places.

# Car Lift

Carelevatorsare designed with generous meassures, The wide range of car parking lifts are fabricated using high-grade raw material, sourced from reliable vendors across the world, And tested on various quality parameters. The sufficiently big cabin and wide door opening make loading and unloading easier for the driver. Our car elevators help to solve the parking problems in steadily growing urbanizations with their lack of available space.

# Hydraulic Lift

They are low maintenance elevator that provide the advantage of being relatively inexpensive, safe and easy to maintain, They are very convenient and cost effective solution for low rise building with low traffic, Hydraulic elevators have been rated as the safest option for home elevators, they provide super user friendliness and easy access to machine room located at the basement, once they are put in place hydraulic elevators provide the smoothest ride possible.

# Scissor Lift

We provide ready to use car and goods lift which are our scissor lifts. They are high capacity hydraulic lifts which can be used as soon as transported to site. They come with very strong structure and high capacity capability. They are one of the safest lift with limitation of height they can be operated at.

# Home Lift

We Provide homelifts which are designed such that they can be placed within available space in any home. No need of shaft or supporting wall, our lift comes with it all, it's an ideal selection for 2-3 story homes.

# Capsule Lift

Our Capsule lift are beauty with efficiency they are the architectural marvel of a building. We have wide range of design in our capsule segment which we provide as per the vision of client. The capsule lift comprises of beautiful interior with large glass viewing panel.

1. All dimensions are in millimeters.
2. All dimensions are for clear finished lift wells after plastering.
3. All walls minimum 150 RCC or 230 brick (hoist way front wall 230 brick preferred.)
4. RCC machine room structural floor slab 150 thick designed to sustain minimum 1000Kg./M UDL.
5. Power supply 400volts, 3 phase 4 wires, 50 Hz and 230 volts 1 phase terminating in a MCCB/ECCB switch to be provided by client.
6. For specific requirements our local representative will be happy to work with you in a preparation of working drawings.

## Features :

**Machine :** Geared or Gearless-fitted in the Machine Room on I-Beams.

Normal Loads 4 Passenger (272 Kgs.) to 26 Passenger (1768 Kgs.)

**Speed :** Low Rise (Up to 6 floors) -0.65 to 1.0 meter/second.

Mid Rise (Up to 12 floors) - 1.0 to 1.6 meter/second.

**High Rise (12 Floor & Higher)** - 1.6 meter/second.

**Control Unit Microprocessor based control unit is fitted in the Machine Room.**

**Drive :** Variable Voltage V variable Frequency drive fitted in the control

unit with open & closed loop operation. Doors forated Automatic Center/Telescopic Doors or Manual Imper and Telescopic doors.

## Microprocessor Control System V3F Advantages

- Jerkless starting & stopping are achieved irrespective of load & percise leveling accuracy.
- Stopping of elevator is done by perfect electrical breaking unit for minimizing the mechanical wear & tear, maintenance free performance forever.
- Due to smooth acceleration & declaration. There is less wear & tear in mechanical parts.
- Higher starting torque helps in no motor over heating, high energy saving by lower starting current lower energy consumption & high power factor.
- Different Parameters like current, torques, speed, acceleration and declaration time can be easily viewed, monitored and controlled on interactive panels.

# ESCALATORS

We offer Escalator with wide range of option and feature, we are among the few Indian companies capable of such feat. Our escalator are highly efficient and reliable. They are technological marvel of company.

**Elevator & Escalators** products have been produced according to the current international standard and Indian Standard. It fully applies the novel materials and advanced technology both at home and abroad to design and manufacture the lifts. It has the features such as smooth running, low noise, fine durability, convenient repair, fine and exquisite structure, outline model, magnification design style with gentle modern flavor. A safe cozy and beautiful escalator can let you enjoy the pleasant and comfortable moment everyday.

**Elevator & Escalators** is exceeding your expectations! It is widely applicable for the shopping center, supermarket, subway, airport etc. With large volume of passenger traffic. It adds one flow and bright scene to your construction.

## Advantageous Performance Of Escalator

- The true utilizes class rectangle steel with unique structure, high strength and nice anti-corruption durable features.
- The overall design is concise, smooth and compatible.
- The advanced international craftsmanship ensures the accuracy of steps.
- The large size diameter of step roller operates minimizes the noise and prolongs the product life.
- The human-oriented handrail entrance is secured by brush.
- The skirt together with interior and outside deck uses deluxe stainless steel.
- Etched stainless steel front panels are available with various varieties.
- The super CPU main board monitors the operations in real time.
- If any abnormal situation occurs, It automatically brakes and records the malfunctions code.
- Customer can choose VVVVP control running speed the energy saving performance is obvious.
- It can prolong product life and reduce the operations cost.
